

THE NORTH AMERICAN LILY SOCIETY, INC. SEED EXCHANGE, 2005-2006

INDEX

Comments	1-2	Div. VI Trumpet/Aurelian Hybrids	8-16
Ordering procedures	2-3	Div. VII Oriental Hybrids	1617-16
Seed Donors	4	Div. VIII Interdivisional Hybrids	16-17
Div. I Asiatic Hybrids	4-5	Div. IX Species	17-19
Div. II Martagon Hybrids	5-7	Auction Items	21-23
Div. III Candidum Hybrids	7	Companion Plants	23
Div. IV American Hybrids	8	Seed from Last Year	23-26
Div. V Longiflorum hybrids	8	Order Form	27-28

Welcome to the seed exchange! The seed exchange is made possible through the generosity of everyone who has taken the time to pollinate, tag, protect, harvest, candle and sometimes even package the results of their labor of love. Other donors have gone to the effort of collecting native species seed growing in the wild. Without the efforts of the donors, the seed exchange would not be possible.

1. USA seed import restrictions necessitated that we establish a point of contact that non-USA donors could use for sending seed to the Exchange. Dr. Eugene Fox of Alberta, Canada graciously consented to carry out this responsibility. I thank him for his efforts.

2. This list will be mailed by conventional mail to Donors first, then to overseas members, then to Canadian and U.S. members. The goal is to try to have the list arrive with donors first then all other members at the same time. The list will be published on the NALS website in early March. NALS members who signed up for electronic distribution/notification will receive an email notice of posting which will be timed to coincide with mailed delivery dates. Orders from non-NALS members will not be accepted before April 1, 2006. **This list expires June 1, 2006** and will be removed from the NALS website at that time. Please see that your order is received before this deadline.

3. We will continue to accept Visa and Master Card as a form of payment. Take time to ensure your card information is correct and legible. PayPal will be accepted beginning this year. **Please read ordering procedures section below!**

4. I am again offering bonus seed to all donors. One (1) free packet will be given for every seed number you have listed, with a limit of three (3) packets. If you are a donor, please deduct these bonus seeds from your cost at the indicated place on the order blank.

5. **Pictures!** With the assistance of the NALS Webmaster and select donors, we have posted some pictures of the parents of the seeds on the NALS web site. Look for a designation in the last column of the seed list where "Y" indicates there will be a photo(s) available. Photos will be on the web site with the list and will be available by clicking on the appropriate position on the line you are reading (no more hunting for the image!).

A few donors have included pictures on packets that they have sent to the exchange. I have indicated where this is so.

6. **Descriptions!** I have tried to include as much of a description as the donor has provided. The better the description, the more likely someone will find a reason to purchase the seed. I assume most of you have access to copies of the RHS International Lily Register; lily books, etc. such that you can look up a description of named lilies. If you do not have the International Lily Register, you can purchase it from the RHS or access Michael Homick's excellent compilation of the Register through the 19th supplement at: <http://prideon.com/>.

For those of you that do not have access to any of those resources, or for unregistered cultivars that would not be contained in them, I have tried to include some supplementary information. In Division VI you will find additional descriptions of the registered and unregistered selections as used in the Division VI seed listing. Much of this information was, again, provided by Calvin Helsley who contributed considerable material to this division. Adjective descriptions such as "outstanding" are Calvin's assessment, or in a few cases, mine. A smaller amount of descriptive material is included in other Divisions.

7. Whenever you see a donor remember to thank them for the effort they have put into making the Seed Exchange possible. If the donor took the extra time and effort to submit photos thank them for that additional effort as well! It is the fervent desire of many of the donors that those of you who purchase some of their seed continue their work. Please

consider doing so. If you have success with someone's material, let him or her hear about it. Everyone likes hearing about his or her offspring!!

Many donors have taken the time and effort to collect species seed from native stands. If you are fortunate enough to obtain some of this seed please do your part to assure their continued purity and survival.

8. Some Disclaimers. Every effort has been made to inspect seed and to ensure that the seed you purchase has visible embryos. It is physically impossible for the Seed Chair to candle or re-candle every seed that has been donated. Where seed is very small, dark, or where embryos are hard to distinguish I have tried to give some indication of this fact. If you wish clearly visible embryos do not order from these lots. In some cases extra seed has been given to compensate for these conditions and is so noted.

You may experience reduced germination from some tetraploid crosses. You may also note that tetraploids do not grow as rapidly as diploids do. I have not attempted to compensate for these deficiencies by including extra seed as there is more intrinsic value in tetra seed and the reward from tetras is in the size and form of the resulting plant.

You may experience significantly reduced germination from interdivisional offerings. Ed Soboczenski suggests that you try germinating your OTs in water. (The actual process is a 20 min soak in 20% diluted Clorox (itself 5% bleach) then soaking in water which is frequently changed and diligently monitored until small plants form and which are transplanted to small flats under lights). I use this method myself as we both learned of it from Harrison Peters. I have not yet worked with embryo culture and find the water germination works better for me than just planting the seeds in a soil mix. However, if you have a method that works for you stick with it.

9. Many donors noted that the amount of viable seed produced was low. As a result, quantities of some very desirable seed are in very short supply. In order to make as much of this material potentially available to as many members as possible I was forced to put considerable material into the auction. I also put a limit on the number of quantity one martagon packets to three per order.

Seed Listings

Seeds are listed by Division and identified by seed number, donor, description, number of seed packets available, and number of seeds in each packet. If there is no listing for the number of seeds, then the packet contains 25 seeds, or maybe a few more. There are two alternate designations for the number of seeds. For example, if the number is given as: 3 @21, this should be interpreted as three packets **each** containing 21 seeds. Another designation used is: 8 +18s, this should be interpreted as there are 8 packets of 25 and **one additional** packet (the last one to be given out) that only contains 18 seeds. Finally, you may see a designation that looks like: 40 +, this should be interpreted as your intrepid seed chair just gave up after packing 40 packs of 25 seeds and there at least a few more packs than the quoted number (and which could be packed if that many were to be sold)!

The seed numbers are interpreted in this way. The first digit identifies the Lily Division or category; the second digit gives the year of the sale (6 for 2006). The other digits identify the seed lot itself. This code establishes a unique number for each lot for ten years.

Seed Ordering Procedures (Includes Changes from Last Year - Please Read!)

Please read this section carefully. By following the instructions and suggestions given below you will have the best chance of getting the seeds you want in the shortest possible time. Please follow the directions given in the "Auction" section if you wish to bid on auction items.

1. **Order by mail or email only** (no phone orders, no fax orders).

2. **Conventional Mail Orders:** Use the order form attached. Order by catalog # only and list your 2nd and 3rd choices (please do not repeat any numbers from the first column as you 2nd or 3rd choices). Be reasonable in your expectations about your chances on small and desirable lots; if you are not a donor, desirable lots containing only a few packets typically sell out within the first 20 or 30 orders (mostly from donors who order early). Prepare your order well. There will be no refunds on cash, checks, PayPal or money orders. If you pay by credit card, you may request that your order be reduced to whatever I can supply and I will recalculate your charge for packets and shipping. A small receipt will be included for charge orders to show the billed amount. **Keep a record of your order, as order blanks will not be returned.**

3. **Electronic Ordering:** This is a new feature this year. You have several options:

- You may scan your paper copy of the filled in order blank and email it to me.
- You may download the form from the website, fill it out and email it to me.

- You may use the shopping cart feature on the website to order seeds. If you use this feature be aware that **the web site is not monitoring inventory**. Even though a packet is placed in your cart it may not be available. Please list acceptable alternates in the comments box or be willing to accept whatever I substitute. The Webmaster and I will attempt to update the list daily as to availability.
- Your order will be filled in the order received (including mailed in orders) and held pending payment. Seeds will be shipped when I receive payment. Payment can be made by conventional mail for: checks, bank drafts or credit card information. Customers are encouraged to use PayPal, as I will ship as soon as I receive notification. I understand that you can now use PayPal, without establishing a detailed account with them simply by supplying your name and credit card information. This is done over a **secure connection**. See the website for details.

3. Send payment in U.S. currency payable to NALS.

- Visa and Master Card (only!) are accepted. PayPal accepted for the first time this year. See NALS website.
- **U.S. members** use personal checks, money orders, credit card, or PayPal.
- **Canadian members** use personal checks (Please mark your check "U.S. Funds", do not calculate monetary exchange rate), Money Orders in U.S. funds, credit card, or PayPal.
- **All other members** make payments in U.S. funds using bank drafts payable through a U.S. bank, International Money Order, credit card, or PayPal.

4. **Pricing.** Most seed is priced at \$1.00 per packet (unless otherwise noted) plus these additional postage and supply charges:

1-20 packets:	U.S. \$1.50	21-40 packets:	U.S. \$2.50
40-50 packets:	U.S. \$3.00	50+ packets:	U.S. \$4.00

Please calculate these charges based on the **number of packets ordered not the number of seed numbers ordered**.

5. **Limitations.** The following limitations are intended to make desirable seeds available to as many members as possible. The filling of seed orders is still on a first-come-first-serve basis, but the chance is better that the seed you desire will still be here when your order arrives. However, when there are only a few packets of seed, the earlier your order arrives the better your chances.

a. The limit on packets for any **individual seed number** is:

- | | |
|---|---|
| 1 if the total number of packets available is 1-15 | 2 if the total number of seed packets is 16- 22, |
| 3 if the total number of seed packets is 23-30 | 4 if the total number of seed packets is 31 or more. |

b. The limit for this year's seed is 30 **Seed Numbers**. There is no limit on last year's seed.

6. Some members may want more seeds than the above limitations allow. I will accommodate those members with the following procedure. For orders of **this year's seed** that exceed 30 seed numbers, I will fill your order up to the first 30 seed numbers and then suspend your order until March 30, 2006 before completing it. The initial fill will be held until after March 30, 2006 **unless you include postage for two separate mailings**. Please be sure to include alternate choices if you wish to use this option.

Abbreviations These abbreviations are used in the list: OP = open pollinated, HP = hand pollinated (Note: I have assumed that most hybridizers use some means to ensure that their intended cross is protected from previous or unintended pollinations. All of these crosses could be labeled as protected pollination. I have just omitted this designation unless I have been made aware otherwise by the donor), CB = closed bud meaning the donor noted that the bud was manually opened to pollinate, sdg./sdlg = seedling, IE = immediate epigeal, DE = delayed epigeal, IH = immediate hypogeal, DH = delayed hypogeal, w/ = with, OT, O/T = an Oriental/ Trumpet hybrid. Most others are basic.

Free Seed NALS will donate leftover seed to regional lily societies world wide for the purpose of furthering the genus Liliium. Please write on your organizations letterhead stating the purpose, quantity and type of material desired. Requests will be processed after the sale is closed.

Enjoy this seed list!

Descriptions of registered clones and unregistered selections

- 'D.A.H. 8' (Crook) unrecorded ancestry, lb, two-tone sunshine yellow, 26 inches tall , 5 inch non-recurved flower, up to 16 flowers in umbel inflorescence, 4-5 inch pedicels, little but fertile pollen.
- 'D.A.H. 9' (Crook) unrecorded ancestry, la, soft pink w/canary yellow in inner half of flower, brown spots, up to 34 seven-inch diameter flowers w/secondaries, 7-8 inch main pedicels on umbel inflorescence, 6-8 flowers open simultaneously.
- 'D.A. H. 13' (Crook) unrecorded ancestry, lab, Deep red-pink w/dark red spotting, up to 8 six-inch flowers, 5 inch pedicels, umbel inflorescence.
- 'D.A.H. 16' (Crook) L. *davidii* v. *unicolor* x Red Strap (an unregistered C. Patterson hybrid) A group of siblings that is split with half of them being 36 inches tall the others 72 inches tall. High bud count with taller clones having up to 50 flowers, lc, recurved red-orange flowers, heavily spotted, evenly spaced raceme inflorescence, all crosses used here are from the taller clones.
- 'D.A.H. 24' (Crook) a cross of D.A.H. 3 (lc of unrecorded ancestry) x Fellner la light orange. Flowers open amber and fade to light pink, sparse brownish red spotting, partially recurved flowers, 12 flowers per stem in a raceme inflorescence.
- 'D.A.H. 29b' (Crook) from two early unrecorded crosses. Doeskin or light cream-colored flowers w/ dark brown spots, lbc, partially recurved, 5 inch pedicels on raceme inflorescence, up to 14 buds on a 28 inch stem.
- 'D.A.H. 29c' (Crook) sib of 29b partially recurved dark red with darker red spotted flowers, amber nectary, 4 inch pedicels, up to 12 flowers on a 28 inch stem.
- 'D.A.H. 36' (Crook) D.A.H. 1 x L. *pumilum*. lbc partially recurved light orange w/ moderate maroon spotting, up to 12 flowers on 4-inch pedicels in a raceme inflorescence, 28 inch stem.
- 'D.A.H. 38a' (Crook) sib to D.A.H. 29b and D.A.H. 29c. lbc golden amber flower partially recurved with brown spotting and brown tip on tepals on 6-inch pedicels. 30 inches tall on multi-layered umbel inflorescence.
- 'D.A.H. 95 (Crook) Angel's Touch x Latoya. la clear dark rose pink, non-fading, 5 inch diameter flower. 26 inches tall 5 buds per stem on 3-inch pedicels, umbel inflorescence.
- 'D.A.H. 171' (Crook) from L. *pumilum* x L. *amabile* which was then forced to set asexual seed. Most look like L. *pumilum* but a few do not and these are lbc amabile orange which fades to pinkish orange inside of 2 days.

Division II, Martagon Hybrids (DH)

NOTE: In fairness to all purchasers, please limit your selection to three different seed numbers where there is only one pack available! Please list alternate choices.

Seed Number	Donor	Seed description and comments	Pkts.	Seeds	Photo avail.
26- 100	OFFFRA	Amelita x Pink Coral Belle. See also auction.			
26- 101	OFFFRA	Amelita x L. <i>martagon</i> var. <i>album</i> . Best seed in auction. Packs here contain some (pack of 20) to a few (pack of 18) visible embryos.

Descriptions of registered clones and unregistered selections

"ACEY SPACY" (H. Peters/sRoss) VI (d) Light yellow orange, twisted epals, henryi type
 'AFRICANKA' (B. Miculka, 1989) VI (a) Bronze apricot with red veining
 'AMAZONKA' (B. Miculka, 1999) VI (c) Pale greenish yellow, brown dusting, sterile anthers
 'AMPLION' (B. Miculka, 1998) VI (b) Apricot orange bowls
 'ANNA MARIA' (?) VI (a/b) Deep apricot bowls
 'APFELBLUTE' (?) VI (b) Cream with pink veining, nice
 'ASTRA' (B. Miculka, 1991) VI (c) Yellow with green reverse
 'BELIZA' (B. Miculka, 1999) White bells with cinnamon-purple sprinkling and pink reverse
 'BIKAVER' (B. Miculka, 2003) VI (b) Pendant purple-pink bowls with orange throat. Colorful!
 'BLACKBERRY ICE' (D. Sylvester, 1988) VI (a) Wonderful very pale pink with blackberry reverse, great inflorescence
 'BLACK DRAGON' (original clone) (J. de Graaff, 1950) VI (a) White trumpets with dark reverse
 'BLACK HEART ORANGE' (L. Woodriff, pre-1960) VI (d) Orange with black nectary
 'BLACK HEART WHITE' (L. Woodriff, pre-1960) VI (b) The original white bowl with gold throat and very black nectaries
 'BORDEAUX' (B. Miculka) VI (a) Trumpets of an unusual deep pink-orange blend
 'BRIGHTON' (B. Miculka, 1993) VI (d) Cream, pale orange center, numerous papillae, nice inflorescence
 'BRIGHT STAR' (original clone) (J. de Graaff, 1959) VI (d) Ivory white, apricot orange center
 'BRONZE PATINA' (E. Hickling 1978) VI (b) Cream, bronze reverse, vigorous
 'BUBBLING OVER' (Helsley 2003) VI (d) Round balls of creamy white with orange center
 'BUCHLOV' (B. Miculka, 2002) VI (c) White with apricot throat
 'BUTTERCURLS' (Bill Craig, 1989) VI (d) Butter yellow, outside brushed reddish orange, excellent form!
 'CARAMBA' (B. Miculka, 1987) VI (d) Excellent INTENSE orange, short. Brilliant color!
 'CHANTILLY' (L. Woodriff, 1975) VI (a) Apricot throughout with a petaloid "beard" on inner petals. So far I have not had the petaloids!
 'CHERRY CLOUD' (E. Hickling 1989) VII (a) White with purplish red reverse, upper leaves also purplish red
 'CHERUBIM' (E. Hickling, 1989) VI (b) Light greenish yellow bowl
 'CIRCUS WORLD' (Bill Craig/Helsley 2003) VI (b-c) White with bright orange center, ruffled tepals
 'COFFEE AND CASTANETS' (Helsley) VI (a) Apricot orange with brown reverse, excellent inflorescence
 'CORRADO' (B. Miculka, 1999) VI (c/d) Deep Orange, mahogany ribs on outside
 'CRAIG ORANGE AURELIAN' (Bill Craig) VI (b/c) Orange, dark nectaries, slight brushmarks
 'DANUBIA' (B. Miculka) VI (a-b) Cream flowers with pink veining
 'DREAMCATCHER' (OBF/Cebeco) VI (a) Upfacing trumpets of creamy yellow with rosy reverse
 'EMERALD ANGEL' (OBF/Cebeco) VI (a) Upfacing light greenish white
 'ENVY' (D. Kollt, 1994) VI (c) Light yellow flowers strongly blended green, green reverse
 'FAITHFUL RETURN' (C. Helsley, 2003) VI (a) This oldie has been with me for 35 years! White with dark reverse. Tepals twisted
 'FAMOSA' (B. Miculka, 1997) VI (b) Cream white with beige throat
 'FAN TAN' (E. Hickling, 1977) VI (b) Tan-orange, early flowering, ruffled
 'FASCINATIN RHYTHM' (C. Helsley) VI (a-b) Wide petaled brilliant orange open trumpet
 'FATIMA' (B. Miculka, 1987) VI (a) Apricot trumpets with red reverse midribs
 'FETIS' (B. Miculka) VI (c/d) White with deep apricot center and throat
 "FINLAYSON TRUMPET SEEDLING" (JK Finlayson) VI (a) Soft apricot-cream tr.. with darker orange throat, rev. with rosy cast, tall with good inflorescence with secondaries, beautiful!
 'FIRST LOVE' (J. de Graaff, 1964) VI (b) Strain of orange/yellow/pink blended flowers
 'FOREVER IN LOVE' (C. Helsley, 2003) VI (a) Beautiful deep lilac inside and out!
 'GEORGE C. CREELMAN' (Preston, 1919) VI (a) I've had this for many years but it is very probably a descendent rather than the original. Wavy white trumpets.
 'GOLD EAGLE' (L. Woodriff, 1957) VI (c-d) Yellow with brown papillae
 'GOLDEN GLIMMER' (Bill Craig/Helsley, 2003) VI (a) Light apricot yellow with good inflorescence, tall, stiff stem
 'GOLDEN PHOENIX' (E. Hickling, 1989) VI (c) Medium yellow, no spots
 'GOLDEN SUNBURST' (J. de Graaff, 1960) VI (c-d) Strain of medium to light yellow sunbursts
 'GOLDIE ANN' (Crawford, 1980) VI (a) Pendant white trumpets. This is the clone received from Borbeleta years ago and is the clone circulating from Europe. It does not match the registration description.
 'GREATHEART' (B. Palmer, 1959) VI (b) Excellent, flame orange center fading to deep cream recurved tips
 "GREEN TRUMPET" (?) VI (a) Greenish white trumpet with green reverse
 "GRIESBACH TETRAPLOID GREEN TRUMPET" (R. Griesbach) VI (a) Light green tetraploid
 "GRIESBACH TETRAPLOID ORANGE BOWL" (R. Griesbach) VI (b) Orange tetraploid bowl
 'HEART'S DESIRE' (select clone) (J. de Graaff, 1950) VI (b) Apricotcream with darker orange center, out- to upfacing short trumpets. From B&D a few years ago.
 "HELSELY HENRYI HYBRID" (Helsley) VI (d) Recurved deep orange, 25+ years old.
 'HOLUBICE' (B. Miculka, 2001) VI (b-c) Creamy light yellow
 "HORN OF PLENTY" (OBF/Cebeco) Upfacing white or creamy yellow flowers, sometimes listed as an upfacing L. regale
 "HUNT WHITE L. HENRYI SEEDLING" (L. Hunt) VI (d) White with orange center
 "INDIAN SUMMER" (?) VIII (c-d) Yellot O-T that looks like and as a diploid aurelian
 'IOWA GOLD' (Schaefer, 2002) VI (a) Gold trumpets with some red on reverse. tetraploid
 'IOWA ORANGELOW' (Schaefer, 2002) VI (b) Bowls of cream with orange center. tetraploid
 'IOWA PINK BLUSH' (Schaefer, 2002) VI (a) Pale pink trumpets with dark pink edging. tetraploid
 'IOWA SNOWFLAKES' (Schaefer, 2001) VI (a) Long white trumpets with dark reverse. tetraploid
 'IOWA SUNBEAM' (Schaefer, 2002) VI (a) Gold trumpets with some red on reverse. tetraploid
 'JOLKA' (B. Miculka, 2003) VI (b-c) Rich orange apricot with darker dashes
 'KAROLINKA' (B. Miculka, 2003) VI (b-c) Greenish-yellow with green reverses

'KING'S RANSOM' (Ross Martin, 1976) VI (b) Orange inside and out
'KOGNAC' (Bohm, 1995) VI (a-b) Rich orange with dark reverse
'KREPOLINA' (B. Miculka, 1989) VI (a-b) Lemon yellow bowls with red midribs on reverse
'KROELL BLACK HEART SEEDLING' (C. Kroell) VI (b-c) White, yellow throat, black nectaries
'LADY ALICE' (DeJong Lilies, 1998) VI (d) A strain of lilies, creamy white with yellow to orange centers
'LADY ANN' (Laan Bros., 1982) VI (b-c) Light yellow cream with orange throat
'LEDNICE' (V. Strasser, 1984) VI (c-d) Strong orange, green throat
'LEMON CHIFFON' (Bill Craig, 1989) VI (d) Lemon yellow, some papillae, late flowering
'LF #1' (L. Freimann) VI (d) Orange with cinnamon papillae spotting. This is the diploid in commerce and not the original tetraploid
'LILAUREL' (B. Miculka, 1977) VI (a) Trumpets of very pale pink
'LOUISE' (L. Koehler/M.Eisel, 1972) VI (d) White with pale orange center, large papillae, late flowering
'LUCIBEE' (O. Witte, 1978) VI (b) Excellent cream with light orange throat, ruffled, great inflorescence
'MAESTRO' (Zorgevics) VI (b) Yellow with red reverse that bleeds through on the front edges of tepals
'MARTIE' (Bill Craig, 1989) VI (b-c) Outstanding brilliant orange open bowls
'MERINDA' (B. Miculka, 1991) VI (a) Apricot with red reverse
'METEOR SHOWER' (Prochaska/Helsley 2003) Light apricot henryi type flowers
'MIDNIGHT' (clone) (J. de Graaff, 1963) Deep purple flowers
'MIDNIGHT' (strain) (J. de Graaff, 1963) Light purple to pink flowers
'MIMOSA STAR' (E. Genat, 1954) VI (d) Recurved yellow flowers, late flowering
'MISSION CHIMES' (C. Helsley, 2003) VI (a) Slightly pendant light apricot orange, the earliest trumpet to flower each year
'MOONLIGHT BELLE' (OBF) VI (a) Slightly pendant, ruffled greenish-yellow
'MOONLIGHT STARBURST' (OBF) VI (a) Light yellow trumpets
'ONEIDA' (E.F.Palmer, 1960) VI (a-b) The latest yellow trumpet, short
'ORCHID MIST' (Bill Craig, 1986) VI (c) White, pale lavender overlay, darker reverse especial on rib
'ORTEGA' (?) VI (a) White trumpets with deep yellow throat. tetraploid
'PALMERSTONE' (E.F.Palmer/B. Miculka, 1985) Orange apricot center fading to light orange tips
'PEPKA' (B. Miculka) VI (c) Lemon yellow flat faced flowers
'PINK AND WHITE DWARF TRUMPEPTS' (McRae) Miniature trumpets of white and pale pink on 28" stems
'PINK ILLUSION' (L. Lutz, 1970) Classic white trumpets with reddish pink reverse
'PINK PICOTEE' (Schaefer/Cebeco) VI (a-b) Very pale pink wide open trumpet with darker pink picotee edges and reverse
'POKLAD' (B. Miculka, 2002) VI (c-d) Light yellow
'POLYDOR' (B. Miculka) VI (b) Creamy white with cinnamon in throat, tetraploid
'POLYRAM' (B. Miculka, 2003) VI (b) White with apricot center, tetraploid
'PRIMROSE BEACON' (E. Robinson, 1978 (2003)) VI (a) Fantastic outfacing deep yellow with good inflorescence
'RADION' (B. Miculka) VI (b) White, lightly pink vined, up facing
'RAPID' (B. Miculka, 2003) VI (b-c) Pale yellow with fine spots in center
'RECOLLECTIONS' (Bill Craig) VI (b) Cream bowl with pink reverse, very late flowering
'REDGOLDINA' (B. Miculka, 1983) VI (a) Narrow trumpets of deep gold with dark red reverse
'REGINA' (E.F.Palmer, 1959) VI (c) Light lemon oldie!!
'REMUS' (B. Miculka) VI (b) Pale beige
'ROGALO' (B. Miculka 1992) VI (b-c) Tall deep yellow with good inflorescence
'SABILE' (Zorgevitzs) VI (a) Yellow trumpet with green tints
'SANCHO' (B. Miculka, 1991) VI (c) Apricot-yellow, outside light red-brown midribs
'SAXANA' (B. Miculka, 2003) VI (b-c) Cream with orange center
'SCHAEFER TETRAPLOID WHITE TRUMPET' (Schaefer) VI (a) Tetraploid white trumpet with deep yellow throat
'SCHOCOLADE' (Bohm, pre-1986) VI (a) Chocolate brown over yellow
'SERENA GREEN' (V. Bowen, 1987) VI (c) Outstanding white with dark reverse. Highly disease resistant. Great!!!
'SEVERKA' (B. Miculka, 2001) VI (c-d) Wonderful white with clean lemon yellow center
'SHINE ON SUNSHINE' (C. Helsley) VI (a-b) Out- and up-facing bright golden yellow
'SINFONIA' (Freeman) VI (a) White with VERY pale pink edges. tetraploid
'SNOWBELLS' (OBF/Cebeco) VI (a-b) White with yellow throat
'SOFT MOONBEAM' (J. Wadkamper, 1981) VI (d) White with slight yellow center
'SOMMERSONG' (B. Miculka) VI (d) White recurved flowers with soft yellow-orange centers and papillae
'STEPIKATS' (?) VI (b) White with beige tint and deep orange throat
'SUNAR' (B. Miculka, 1990) VI (a-b) Yellow with red edges and reverse
'SWEET ELOQUENCE' (Bill Craig/Helsley, 2003) VI (c-d) White with soft pink petal edges, bright gold throat and deep rose pink reverse
'SYLVESTER CLEVELAND' (D. Sylvester/C. Helsley, 2003) VI (a-b) Cream
wide open trumpets with large gold throat and deep pink rose reverse
'TROPICAL ISLE' (Cebeco/B&D) VI (a-b) Yellow with melon pink tepal edges
'TROPICAL RAIN' (Cebeco/B&D) VI (a-b) Ivory pink with darker edges and reverse
'UPFACING YELLOW TRUMPET' (?) VI (a) Upfacing yellow with slight red reverse
'WHISTLIN' DIXIE' (OBF/Cebeco) VI (b) White bowls with orange centers and dark penciling in center
'WHITE HENRYI' (L. Woodriff, 1945) VI (b-c) Classic, disease resistant cream with orange throat
'WINNING SPIRIT' (C. Helsley, 2003) VI (b) Cream-apricot bowl with orange center
'ZEMGALE' (Zorgevic, 1987) VI (a) Creamy white trumpet
'ZIGEUNERBRAUT' (Bohm, pre-1981) Peach and orange-brown

TET AURELIAN MIX OP (BOWEN), collected from a number of stems from 1988 crosses involving (1) TWH x (TWH x TWT) and (2) TWH x (Tet L. regale x TWH). Also, from 1994 crosses involving the above with LF-1, which did not change the appearance much. All are white/ivory with orange or gold throats and varying amounts of brown or orange papillae. Note: LF-1 is an interspecific cross (Thunderbolt x Tet Rachul Pappo) so these seeds could be placed in Div VIII but I have not done so because of Vicki's observation that LF-1 did not change seedling appearance.

'SOUTHERN SKY'. (D. Paulson not yet registered) Dark purple trumpet with white down center of petals. Received Award of merit for hybridizing.
'WHITE W/ORANGE CENTER HALINAR HENRYI HYBRID'. See picture, 8 ft tall, has tertiary buds.
'LARGE YELLOW GOLD EAGLE SEEDLING'. See Picture. Large pale yellow flowers, 6 foot tall, has secondary buds.
GOLD EAGLE x PRIMROSE BEACON (Ault) Bowl shaped, Wide petals, white, large yellow ctr, lemon fragrance.
'EUREKA' (Brian Tonkin) Green overtones that are passed on to offspring.
CK04-01, White w/ yellow center and black heart.
Ck05-02 (Kroell) Light pink trumpet, yellow throat.

 "DOROTHY KRIST" (Hoell) VIIb, deep pink with white tips, yel/green outside, dk red spots

Division VIII, Interdivisional Hybrids

Most seeds in this division will demonstrate IE germination. However, in some cases I have seen both IE and DH germination of OT seeds from the same seed pod! The percentage that is DH is low. You should be aware of this possibility.

Descriptions of registered clones and unregistered selections

'94-4402' White with yellow throat, tall, vigorous, fertile, Dorothy Schaeffer hybrid [(Tet L. regale x Tet White Henryi) x Leslie Woodriff]
 '97-4235' (D. Schaefer/Cebeco) [(tet. L. regale x tet White henryi) x Cebeco tet yellow Trumpet sdlg.
 'FLAT ROSE' (Evans) Tetra Black Beauty x Tetra white tr.
 GRIESBACH OTS. All are tetraploids whose parents date back to his original TBB x TWH and reciprocal crosses.
 '96-8-108 (J. Hoell) Yellow [(Canterbury Bell x Golden Splendor) x Freimann 4-way]
 '96-6-110 Nice yellow Trumpet [(Golden Splendor x Moriarity #1) x Catherine Biddell]
 MORIARITY #1 Large Canterbury Apricot trumpet
 '96-6-132 (J. Boden) purple trumpet (Golden Splendor x Big Midnight)
 "JF-OT1-04" (Judith Freeman) tet OT, FN 354-03, Good breeders for long inflorescence. [Tet Wh Henryi x CP75, Gold OT, fertile] x [TWH x CP 80195 Gold/Red]
 'REGAL STAR'r (R. Bazett) a TBB x TWH cross. Dark red, white edges, fertile, tetra OT.
 '03-13 (Hoell) is [96-6-110 x (TBB x 82111)] x [(tet Rachel Pappo x TWH) x TWT]
 '93-8-91 (Hoell) Yellow Aurelain x Podge, 2n
 'PODGE' (T. Alexander) White Henryi x L. *rubellum*, White/pink with a hint of green.
 'ANGELICA'. (Bazett), Creamy White 3n OT {4n, [Starburst Sensation x 4n(White Henryi x Dominique)] x 2n White trumpet}
 'PRETTY MAID" (Bazett), Open faced trumpet form pink blend, 3n OT, {4n, [Starburst Sensation x 4n(White Henryi x Dominique)] x 2n Upfacing White trumpet}

Division IX. Species

Germination characteristics as noted in lily books have been given for the species. Frequently, this only partially tells the story and you are encouraged to read about the habits of the species before planting your seed. Most IE types are straightforward. Some DH types respond best when there naturally occurring conditions are duplicated. For example, the Western American species germinate in the fall in cool conditions and winter over with a first leaf appearing in the spring. If you sow this seed outdoors in the spring you will likely experience a total crop failure. Anyone interested in the species should consider joining the Species Lily Preservation Group (SLPG).

Auction Items

The deadline for receipt of auction bids is **March 30, 2006**. Please submit your bid(s) by mail or email. Submit your bid on a sheet of paper and include not only the seed number and amount bid but also your name, address and phone number. The minimum bid is \$5.00 per packet.

With multiple packet lots, the highest bidders will receive one packet each. If there are identical bids, the earliest one received will be the winner.

Do not send money for auction items: I will send seeds to the successful bidders along with an invoice for payment.
