		Order Form

Welcome to the NALS 2011 Seed Exchange. The seed exchange is the result of the generosity of the members of The North American Lily Society.

1. The NALS Seed Exchange Catalog will be mailed by conventional mail to members who requested a paper copy. Copies will be mailed to Donors first, then to overseas members, then to Canadian and U.S. members. The goal is to try to have the list arrive with donors first then all other members at the same time. The list will be published on the NALS website for general membership in early April. NALS members who signed up for electronic distribution / notification will receive an email notice of posting which will be timed to coincide with mailed delivery dates. This list expires June 15, 2011 and may be removed from the NALS website at that time. Please see that your order is received before this deadline.

2. We will continue to accept Visa and Master Card as a form of payment. **Take time to ensure your card information is correct and legible.** PayPal will be accepted again this year. Please read the ordering procedures section below!

3. We are again offering bonus seed to all donors. One (1) free packet will be given for every seed number you have listed. (Maximum of three (3) packets.)

4. **Pictures!** With the assistance of select donors, we have posted some pictures of the parents of the seeds on the NALS web site. Photos will be on the web site with the list, (no more hunting for the image!). Click on the thumbnail image to view a larger depiction of the flower, use your back button to return to the list.

5. **Descriptions!** We have tried to include as much of a description as the donor has provided. The better the description, the more likely someone will find a reason to purchase the seed. We assume most of you have access to copies of the RHS International Lily Register; lily books, etc. such that you can look up a description of named lilies. If you do not have the International Lily Register, you can purchase it from the RHS or access the web site created by Gerry Danen at www.lilyregister.com and click on Lily Register.

6. Whenever you see a donor remember to thank them for the effort they have put into making the Seed Exchange possible. If the donor took the extra time and effort to submit photos thank them for that additional effort as well! It is the fervent desire of many of the donors that those of you who purchase some of their seed continue their work. Please consider doing so. If you have success with someone's material, let him or her hear about it. Everyone likes hearing about his or her offspring!!

This year the number of donors were down as well as the packages of varieties received. However many of our dedicated members have pulled through and sent seed that exceeds the gratitude we can express.

"Thank You" to the following donors:

Robert Griesbach for his ever popular tetraploids. Robert sent a priority shipping box full of his genetic material. All wonderfully candles and ready to be instilled from his garden to yours.

Robert Barnard donated a great selection of Division 4 hybrids, which is in short supply or non existent in previous years.

Darm Crook from the great white north in Canada, who grows a great selection of species has donated a selection of species seed and hybrids of interspecifics that will tantalize many.

Forrest Peiper also donates a varied selection of wonderful crosses, Joe Nemmer has many crosses from varied sources and Brian Bergman for his OT crosses. I could go on and on with appreciative comments for all our donors. It is through the various seed exchanges from all the plant societies, iris, rock garden, lilies, etc... that the hybridizers have the ability to reach around the world and plant a seed of hope, beauty and love into your garden for you to enjoy. It is there in every seed we distribute.

A Big Thank you to all those who contribute!

7. **Some Disclaimers.** Every effort has been made to inspect seed and to ensure that the seed you purchase has visible embryos. Where seed is very small, dark, or where embryos are hard to distinguish we have tried to give some indication of this fact. If you wish clearly visible embryos do not order from these lots. In some cases extra seed has been given to compensate for these conditions.

You may experience reduced germination from some tetraploid crosses. You may also note that tetraploids do not grow as rapidly as diploids do. We have not attempted to compensate for these deficiencies by including extra seed as there is more intrinsic value in tetra seed and the reward from tetras is in the size and form of the resulting plant. You may experience significantly reduced germination from interdivisional offerings.

8. Seed Listings

Seeds are listed by Division and identified by seed number, donor, and description. The seed numbers are interpreted in this way. The first digit identifies the Lily Division or category; the second digit gives the year of the sale (1 for 2011). The other digits identify the seed lot itself. This code establishes a unique number for each lot for ten years.

Seed Ordering Procedures

Please read this section carefully. By following the instructions and suggestions given below you will have the best chance of getting the seeds you want in the shortest possible time. Please follow the directions given in the "Auction" section if you wish to bid on auction items.

1. **Order by mail, or email** (phone or fax orders not accepted).

2. **Conventional Mail Orders:** Use the order form attached. Order by catalog # only and list your 2nd and 3rd choices (please do not repeat any numbers from the first column as your 2nd or 3rd choices). Be reasonable in your expectations about your chances on small and desirable lots; if you are not a donor, desirable lots containing only a few packets typically sell out within the first 20 or 30 orders (mostly from donors who order early). If you pay by credit card, you may request that your order be reduced to whatever we can supply and we will recalculate your charge for packets and shipping. A small receipt will be included for charge orders to show the billed amount. **Keep a record of your order, as order blanks will not be returned.**

3. **Electronic Ordering:** You have several options:

- You may scan your paper copy of the filled in order blank and email it to me.
- You may download the form from the website, fill it out and email it to me.
- Your order will be filled in the order received (including mailed in orders) and held pending payment. Seeds will be shipped when we receive payment. Payment can be made by conventional mail for: checks, bank drafts or credit card information. Customers are encouraged to use PayPal, as we will ship as soon as we receive notification.

4. **Send payment in U.S. currency payable to NALS.**

- Visa and Master Card (only!) are accepted. PayPal accepted. It worked quite well last year. See NALS website for PayPal details . - U.S. members use personal checks, money orders, credit card, or PayPal.
- Canadian members use personal checks (Please mark your check "U.S. Funds", do not calculate monetary exchange rate), Money Orders in U.S. funds, credit card, or PayPal.
- All other members make payments in U.S. funds using bank drafts payable through a U.S. bank, International Money Order, credit card, or PayPal.

5. **Pricing.** Seed is priced at **\$1.05 per packet for 2011. .55 cents per packet for previous year's seed.** Included are these additional postage and supply charges:

1- 20 packets: U.S. \$1.50 21 - 40 packets: U.S. \$2.50 40 - 50 packets: U.S. \$3.00 50 + packets: U.S. \$4.00

Please calculate these charges based on the number of packets ordered.

6. **Limitations.** The following limitations are intended to make desirable seeds available to as many members as possible. The filling of seed orders is still on a first-come-first-serve basis, but the chance is better that the seed you desire will still be here when your order arrives. However, when there are only a few packets of seed, the earlier your order arrives the better your chances.

a. The limit on packets for any individual seed number is: 1

b. The limit for this year's seed is 30 **Seed Packets.** There is no limit on the previous year's seed.

7. Some members may want more seeds than the above limitations allow. We will accommodate those members with the following procedure. For orders of this year's seed that exceed 30 seed packets, we will fill your order up to the first 30 seed packets and then suspend your order until May 1, 2011 before completing it. The initial fill will be held until after May 1, 2011 unless you include postage or two separate mailings. Please be sure to include alternate choices if you wish to use this option.

Abbreviations: These abbreviations are used in the list: OP = open pollinated, HP = hand pollinated, PP = protected pollination.

(Note: We have assumed that most hybridizers use some means to ensure that their intended cross is protected from previous or unintended pollinations. All of these crosses could be labeled as protected pollination. We have just omitted this designation unless we have been made aware otherwise by the donor), sdg./sdlg = seedling, IE = immediate epigeal, DE = delayed epigeal, IH =immediate hypogeal, DH = delayed hypogeal, w/ = with, OT, O/T = an Oriental/ Trumpet hybrid. Most others are basic. Enjoy this seed list!

Auction Items

The deadline for receipt of auction bids is April 15, 2011. Please submit your bid(s) by mail or email. Submit your bid on a sheet of paper and include not only the seed number and amount bid, but also your name, address and phone number. The minimum bid is \$3.00 per packet. With multiple packet lots, the highest bidders will receive one packet each. If there are identical bids, the earliest one received will be the winner. Do not send money for auction items: We will send seeds to the successful bidders along with an invoice for payment.

 Goldsmith (tetra) - Light yellow, sidefacing, darker reverse, flared trumpet
 Halinar seedling - Can get to over 8' tall with tertiary buds. Multiples quickly. Excellent pod fertility.
 Madam Butterfly - White, orange center, henryi type

DIVISION VII

Farolito - Very early flowering semi-double dwarf oriental
 Rosario - Very early flowering dwarf oriental

DIVISION VIII

Blackheart OT is Roy's Select x OT
 E-02-424 is soft pink oriental x upright yellow trumpet
 E-04-214 is ER stuff from Johan Mak this one is Soft Pink Oriental x upright yellow trumpet

Gwyn's Golden Aurelian plus Ralph's MD x NALS (a selection from my cross of Michael Darcy x with pollen from NALS show in Washington. One of Ed Soboczenki's large hybrids that didn't bloom in time for judging.

Gwyn's Surprise is Roy's Select x OT. The surprise was the size of the bulb. A 4 year old bulb from seed grew to a diameter of 12". This year there were 8 stems that all approached 7' tall. Gwyn's Golden Aurelian was growing in with Gwyn's seedlings. We do not know it's background. All I know is that as a pollen parent it hybridizes with OT's, orientals and aurelians.

ORLS OT is White trumpet yellow center x Oriental hybrid

Ralph Suttels Copper King str is the clearest orange I have seen and vigorous. Ralph has won a number of awards at the ORLS with this strain.

Red Heart is Roy's Select x OT

Niagara's Pride is (Northern Carillon x Pizzazz)(a Beverly Ann on Steroids)

Thunder "F" is (Thunderbolt x LF-1) the LF-1 came from B&D when they originally introduced.

Thunder "F" is an OT and fertile (crossed with Pizzazz and a couple of others), it has grown up to 8' tall with about 30 out facing flowers. See pic's
