Welcome to the NALS 2023 Seed Exchange. The seed exchange is the result of the generosity of the members of The North American Lily Society.

1. The NALS Seed Exchange Catalog will be published on the NALS website for general membership. NALS members who signed up for electronic distribution / notification will receive an email notice of posting which will be timed to coincide web site publication.
2. Orders should be placed using the convenient on-line shopping cart structure on The North American Lily Societies website. Please read the ordering procedures section below!
3. We are again offering bonus seed to all donors. One (1) free packet will be given for every seed number you have listed. (Maximum of three (3) packets.) Donors will be reimbursed through PayPal after their order has been received for the value of their free packets.
4. **Pictures!** With the assistance of select donors, we have posted some pictures of the parents of the seeds. Click on the thumbnail image to view a larger depiction of the flower.
5. **Descriptions!** We have tried to include as much of a description as the donor has provided. We assume most of you have access to copies of the RHS International Lily Register; lily books, etc. such that you can look up a description of named lilies. If you do not have the International Lily Register, you can download it from the RHS site.

6. Whenever you see a donor remember to thank them for the effort they have put into making the Seed Exchange possible. If the donor took the extra time and effort to submit photos thank them for that additional effort as well! It is the fervent desire of many of the donors that those of you who purchase some of their seed continue their work. Please consider doing so. If you have success with someone's material, let him or her hear about it. Everyone likes hearing about his or her offspring!! **Thank you to all those who contribute!**

7. **Some Disclaimers.** Every effort has been made to inspect seed and to ensure that the seed you purchase has visible embryos. Where seed is very small, dark, or where embryos are hard to distinguish we have tried to give some indication of this fact. If you wish clearly visible embryos do not order from these lots. In some cases, extra seed has been given to compensate for these conditions.

You may experience reduced germination from some tetraploid crosses. You may also note that tetraploids do not grow as rapidly as diploids do. We have not attempted to compensate for these deficiencies by including extra seed as there is more intrinsic value in tetra seed and the reward from tetras is in the size and form of the resulting plant. You may experience significantly reduced germination from interdivisional offerings.

8. **Seed Listings**

Seeds are listed by Division and identified by seed number, donor, and description. The seed numbers are interpreted in this way. The first digit identifies the Lily Division or category; the second digit gives the year of the sale (3 for 2023). The other digits identify the seed lot itself. This code establishes a unique number for each lot for ten years.

Seed Ordering Procedures

Please read this section carefully. By following the instructions and suggestions given below you will have the best chance of getting the seeds you want in the shortest possible time.

1. **Electronic Ordering:** Orders can now only be placed on-line through the North American Lily Societies website, utilizing the ordering buttons and shopping cart provided.

2. **Pricing.** Seed is priced at \$3.00 per packet for 2023 and \$1.00 per packet for older seed.

Prices for shipping will be calculated based on delivery address. Tracking will be provided when possible.

Please note: Foreign orders will be shipped with all necessary documentation for customs inspection. However, you are ordering at your own risk. We cannot guarantee orders due to changes or errors made by customs agents.

3. **Limitations.** The filling of seed orders is still on a first-come-first-served basis, but the chance is better that the seed you desire will still be here when your order arrives. However, when there are only a few packets of seed, the earlier your order is made the better your chances.

- There is a 1 packet limit for any individual seed number of new seed. There is no limit on previous seed.
- The limit for 2023 seed is 30 packets. There is no limit on the previous seed.

Abbreviations: These abbreviations are used in the list: OP = open pollinated, HP = hand pollinated, PP = protected pollination.

(Note: We have assumed that most hybridizers use some means to ensure that their intended cross is protected from previous or unintended pollinations. All of these crosses could be labeled as protected pollination. We have just omitted this designation unless we have been made aware otherwise by the donor), sdg/sdlg = seedling, IE = immediate epigeal, DE = delayed epigeal, IH = immediate hypogeal, DH = delayed hypogeal, w/ = with, OT, O/T = an Oriental/ Trumpet hybrid. Most others are basic. Enjoy this seed list!

Division 9: Species

93-001	L. amabile – These are seeds from my original sdls that were started back in 1998. It shows how long lived this species is.	Darm Crook	0
93-002	L. amabile v. luteum	Darm Crook	0
93-003	L. amabile var luteum	Forrest Peiper	5
93-004	L. apertum	Stephen Willson	26
93-005	L. auratum	Martin Toon	8
93-006	L. bakerianum rubrum	Martin Toon	2
93-007	L. bulbiferum	Martin Toon	0
93-008	L. bulbiferum v. croceum	Darm Crook	0
93-009	L. bulbiferum v. croceum red form	Darm Crook	0
93-010	{L. bulbiferum x L. bulbiferum v. croceum} x L. bulbiferum v chaixii some do not produce stem bulbils	Darm Crook	0
93-011	L. candidum Cascade Strain	Martin Toon	3
93-012	L. columbianum	Gordon Hogenson	12
93-013	L. columbianum	Martin Toon	4
93-014	L. concolor baranova	Martin Toon	5
93-015	L. concolor pulchellum	Martin Toon	3
93-016	L. concolor yellow	Martin Toon	17
93-017	L. dauricum pink overlay 18 to 26 inches tall	Darm Crook	0
93-018	L. dauricum red form 18 to 26 inches tall	Darm Crook	0
93-019	L. dauricum red form 20 to 30 inches tall	Darm Crook	0
93-020	L. dauricum short form [ex McRae] 14 to 20 inches tall	Darm Crook	0
93-021	L. dauricum v. alpinum from 10 to 14 inches tall	Darm Crook	0
93-022	L. dauricum v. alpinum from 2 to 7 inches tall	Darm Crook	0

93-023	L. dauricum yellow form 14 to 20 inches tall	Darm Crook	0
93-024	L. davidii	Darm Crook	0
93-025	L. formosanum collected from a naturalized population around Murray's Beach in South Wales, Australia	Tim Cannon	40
93-026	L. formosanum tall form	Patrick Brown	6
93-027	L. formosanum var. pricei	Stephen Willson	17
93-028	L. grayii	Martin Toon	21
93-029	L. hansonii red form – this is actually the type and the yellow variation is a variety	Darm Crook	0
93-030	L. henryi	Luminita Vollmer	30
93-031	L. henryi (Griesbach rescue with strongly revolute orange flowers and wide petals x ((L. henryi x L. henryi citrinum) x Griesbach deep lemon L. henryi citrinum)) orange but yellow recessive 2022170	Jim Ault	25
93-032	L. henryi (Griesbach rescue, typical. Mostly orange with some yellow possible citrinum recessive) x L. henryi citrinum 2022188	Jim Ault	10
93-033	L. henryi vigorous x L. henryi Lily Nook 'Select'	Art Evans	16
93-034	L. kelloggii	Stephen Willson	26
93-035	L. kelloggii	Martin Toon	28
93-036	L. lancifolium orange diploid	Gordon Hogenson	10
93-037	L. lancifolium v. fortunei x L. lancifolium v. splendens	Darm Crook	0
93-038	L. lankongense [ex McRae] dark pink	Darm Crook	0
93-039	L. lankongense light pink	Darm Crook	0
93-040	L. ledebourii	Martin Toon	3
93-041	L. leichtlinii my old form x L. leichtlinii Godzilla form	Darm Crook	0
93-042	L. mackliniae	Martin Toon	2

93-043	L. mackliniae light pink "King Ward" form	Stephen Willson	17
93-044	L. mackliniae Tantallon	Martin Toon	2
93-045	L. maculatum early form – flowers about 2 weeks prior to the regular L. maculatum.	Darm Crook	0
93-046	L. majoense	Patrick Brown	3
93-047	L. maritimum	Stephen Willson	17
93-048	L. maritimum	Martin Toon	4
93-049	L. martagon dalmaticum	Martin Toon	6
93-050	L. matangense	Stephen Willson	20
93-051	L. michauxii	Gary Burrows	0
93-052	L. michiganense	Luminita Vollmer	5
93-053	L. michiganense wild collected	Patrick Brown	26
93-054	L. monadelphum – this may actually be L. szovitsianum however the original seeds came to me as L. monadelphum.	Darm Crook	0
93-055	L. monadelphum	Martin Toon	23
93-056	L. nepalense	Martin Toon	16
93-057	L. occidentale Gaunt Strain	Martin Toon	16
93-058	L. pappilliferum	Martin Toon	15
93-059	L. parvum Halliday	Martin Toon	3
93-060	L. phillipinense tall september bloom in arkansas. White with greenish yellow centers, no color on exterior nice fragrance	Art Evans	47
93-061	L. pitkinense	Martin Toon	6
93-062	L. pumilium ex Bjornar Olsen 16-068 wild collected x siblings	Rick Rodich	3
93-063	L. pyrenaiceum	Gordon Hogenson	11
93-064	L. rubellum	Martin Toon	5
93-065	L. sargentiae	Gordon Hogenson	18
93-066	L. shastense	Martin Toon	7

93-067	L. speciosum	Martin Toon	4
93-068	L. speciosum Fourth of July x L. speciosum Uchida 2022212	Jim Ault	16
93-069	L. speciosum Uchida x L. speciosum Fourth of July 2022211	Jim Ault	8
93-070	L. szovitsianum	Darm Crook	0
93-071	L. tsingtauense	Gordon Hogenson	6
93-072	L. tsingtauense	Darm Crook	0
93-073	L. wigginsi	Martin Toon	14
93-074	L. tinstauense (Summers clone from 1970's) x L. tingtauense (Jeff Stiller clone)	Warren Summers	7
